EXPERIENCE

Full Stack Developer Intern

Planet Peanut   📅 06/2024 - 10/2024   📍 Copenhagen, Denmark

- Developed a comprehensive teacher dashboard web application for Planet Peanut using **Next.js, Supabase, Next Auth, MongoDB, and Node.js**. The application serves as a centralized platform for teachers to manage classes, track student progress, and access educational resources.
- Focused on database management and optimization with **Supabase** and MongoDB, ensuring efficient data storage and retrieval for improved application performance and user insights.
- Utilized version control systems **(Git)** to maintain and integrate code, supporting collaborative development and maintaining data integrity.
- Designed user interfaces with a focus on data visualization and user experience, implementing responsive design principles to ensure accessibility across devices.
- Created visual designs and prototypes using **Canva** and **Figma**, translating data and user requirements into actionable design solutions.

Customer Operations Specialist

Samsung Department, CMC   📅 02/2020 - 02/2021   📍 Malatya, Turkey

- Analyzed and resolved 70+ customer issues daily, using data to identify and address recurring technical problems.
- Utilized proprietary software to collect and interpret diagnostic data, improving troubleshooting efficiency and account management.
- Monitored and reported on product performance and customer feedback to refine support strategies and enhance service quality.

SKILLS

React.js	Node.js	Git	Html	Javascript	MySQL
PostgreSQL	Next.js	Express.js	CSS	React.js	
Typescript	Docker	Postman	Nest.js	Supabase	
Firebase	Figma	Canva	MongoDB	CI/CD	TDD
Clean Code	Expo	React Native	Python	Linux	
Communication	Teamwork	Collaboration	AWS	Vue.js	
Nuxt.js	Vuetify

EDUCATION

Cloud Computing and AWS Fundamentals

HackYourFuture x AWS: Masterclass

📅 11/2024 - 12/2024   📍 Copenhagen, Denmark

- **Introduction to Cloud Computing & AWS**: Gained foundational knowledge of cloud computing concepts and AWS services.
- **Serverless & Content Delivery**: Learned to build and deploy serverless applications using AWS Lambda and explored efficient content delivery through AWS CloudFront.
- **DevOps & Containers**: Gained practical experience with containerization using Docker and orchestration with Kubernetes, and learned about DevOps workflows.
- **AWS Amplify**: Developed frontend and backend applications with AWS Amplify, learning how to streamline the deployment of full-stack apps.
- **Event-Driven Architectures**: Learned to design and implement scalable event-driven systems using AWS services like SNS and SQS.
- **Serverless Game Development**: Worked on a project that involved deploying a serverless game architecture, applying all the concepts from previous sessions.

Full Stack Web Development

HackYourFuture

📅 08/2023 - 04/2024
📍 Copenhagen, Denmark

- Completed an intensive 8-month Full Stack development course, providing hands-on experience through various projects. Below are examples of projects completed during the course:
- Meal Sharing App: Using **React.js, Node.js,** JavaScript, **Express.js**, MySQL
- Check-in App: Using React.js, Node.js, JavaScript, Express.js, MySQL, PostgreSQL
- To-Do App: Using React.js, Node.js, JavaScript
- Currency Calculator: Using **HTML, CSS** and **JavaScript**
- Interactive Rating Component: Using **HTML, CSS** and JavaScript

VOLUNTEERING ACTIVITIES

Mentor Assistant

HackYourFuture Denmark 📅 2024 - Present

Assisted in mentoring aspiring developers, supporting their learning journey in web development. Contributed to their educational growth by providing guidance on coding best practices and effective development techniques.

Copenhagen Developer Festival

NDC Conferences 📅 08/2024

Contributed to the successful execution of a major tech festival by collaborating with industry professionals and fellow developers. Gained insights into the latest trends and innovations in software development, which enhanced skills as a Junior Web Developer. Networked with experts and peers, further fueling a passion for web development and continuous learning.

EDUCATION

B.Sc. of Pedagogy & Music Education

Ibrahim Cecen University

📅 01/2016 - 01/2020   📍 Agrı, Turkey
